

COMPLAINT MANAGEMENT SYSTEM

Ydor Hotel & Spa aims to provide exceptional customer service for its guests. We believe that to achieve our goal we have to actively listen to our guests' opinions. This is the reason why we take complaint management very seriously. Our guests feedback will allow us not only to solve the problems that current guests are facing but also to avoid complaints from future guests by altering our processes to accommodate to their needs.

To increase guest satisfaction and provide better customer service, we keep an anonymised record of the complaints and proposed solutions offered in each case. This information is aggregated and then evaluated by the management team weekly in order to utilise it to train our staff with the goal to improve our practises.

Please note that:

- We inspect every single complaint thoroughly so as to determine the root of the problem and take appropriate action.
- We comply with the legislation in force and protect the personal data of our customers.
- We provide continuous training for our personnel on our complaint management system and on how to handle complaints effectively.
